St. Mary CCD Attendance Policy

2024-2025

Regular attendance is very important as it enables students to fully benefit from CCD. Attending school every week ensures that each student keeps up with the teacher's lesson plan and assignment schedule. It also instills the sense that your child's education in their Catholic faith is at least as important as the other activities in his/her life, and therefore should be taken just as seriously.

If a child is absent for more than 5 days (~20% of total Sunday School sessions), then they would have missed a significant portion of the educational content. In second and fifth grade especially this is important as we are preparing for the sacraments of reconciliation, communion, and confirmation. These absences will prevent your student from participating in these sacraments. Practice days for these events are also required with no exception.

Student attendance is taken each Sunday.

If your student is absent, please notify the teacher and ask for the make up work and readings for the week. Each student is expected to attend the following week prepared and should be caught up.
